

THE RETINA SESSIONS

10 NOV

OGDEN MUSEUM OF SOUTHERN ART
925 CAMP ST., NEW ORLEANS, LA 70130

7-10PM

We invite vitreoretinal surgeons to The Retina Sessions, a night of in-depth and interactive discussion at AAO 2017. Attendees can interact with our panel of experts as they analyze video of challenging retinal cases and provide insights, which can be especially helpful to first and second year retina fellows. Attendees will receive an exclusive look at the Stellaris Elite™ and the Vitesse™ hypersonic vitrectomy system as we discuss their uses in these cases. Join us on Friday, November 10, at the Patrick Taylor Library in the Ogden Museum of Southern Art for this unique, educational event.

Asheesh Tewari, M.D.

Moderator
